 on the top and bottom of the key. With the electronic access and
 drive-away authorization system, you can open all doors and the
 trunk lid of your vehicle without a key and lock them again using the
 sensors on the door handles. The convenience key simply needs to
 be carried with you. The engine is started and stopped using the
 engine start/stop button.)
- Front seat heating (heats seat and backrest center panels; with leather upholstery, sports seats, and S-sport seats, also seat side bolsters - individually adjustable in multiple stages for driver and passenger side using the climate control panel)
- High Beam Assistant (within the system's limits, it automatically
 detects the headlights of oncoming traffic, the taillights of other road
 users, and light sources in built-up areas. Depending on the traffic
 situation, the high beam is automatically switched on or off. The
 system thus improves the driver's visibility and increases comfort.)
- Parking Aid Plus (Acoustic and visual parking aids at the front and rear assist with parking and maneuvering. With selective, visual display of the distance to detected objects on the MMI display, depending on the current steering angle and direction of travel. The virtual lane indicator also offers lateral guidance lines that are calculated in advance based on the currently selected steering angle. Measurement is performed by ultrasonic sensors discreetly integrated into the bumpers.)

Basis for the order

This product is based on the Alphabet Fuhrpark GmbH guidelines for vehicle returns and valuations. The expert makes the explicit findings in each individual case objectively within the framework of the specified standards based on his or her own expertise.

The vehicle inspection takes place in a disassembled state.

Damage or defects that can only be detected during disassembly/diagnosis work or through advanced knowledge remain within the scope of the prognosis risk. An extended risk exists for concealed defects caused by fraudulent deception and not identifiable by the expert.

Damage or defects resulting from normal use or wear and tear of the vehicle will be accepted according to the applicable standard.

There was no explicit identification or monetary consideration of the expected features within the product.

Features which in their nature and severity slightly exceed normal use but do not constitute unacceptable damage will be documented and identified under signs of use if necessary.

Damage or defects which, according to the underlying standard, can no longer be attributed to normal use or wear and tear are listed in the product under "Depreciating Factors".

Depending on the product specification, a monetary ID can be provided. If this takes place, the costs can be 100% d or pro rata depending on the vehicle's age and mileage.

Previous damages

Apparently, no repaired previous damage could be found on the vehicle.
