- Anti-theft alarm system (monitoring of doors, hood, and trunk lid. The Safelock, linked to the door locks, prevents the doors from being opened from the inside once the vehicle has been locked with the key. The anti-theft alarm system includes: - switchable ultrasonic interior monitoring - warning via tilt angle sensor in the event of theft - battery-powered horn to prevent wiring tampering)
- Lane Departure Warning (helps prevent unintentional lane departure within system limits. If the system is activated and ready, and the driver has not activated the turn signal, the Lane Departure Warning helps prevent crossing detected lane markings by correcting the steering. An additional steering wheel vibration can be adjusted upon driver request. Functional range from approximately 60 to a maximum of 250 km/h.)
- Rear view camera (The rear view camera detects the area behind the vehicle within system limits and displays it on the MMI screen using dynamic display elements. It is possible to choose between perpendicular parking and trailer mode in conjunction with a factory-installed trailer hitch. Depending on the selected mode, the calculated lane or a guide line for coupling a trailer is displayed. The rear view camera is discreetly integrated into the handle bar of the trunk lid.)
- Steering wheel: 3-spoke leather steering wheel with multifunction plus (with 14 multifunction buttons for convenient operation of the existing infotainment features such as audio skip, telephony, NAV button, or the freely programmable button - adjustable in height and distance - with full-size airbag - shift paddles for manual gear changes)
- Stop assist (holds the vehicle for an unlimited period of time after stopping on normal road gradients and inclines).
- Storage and luggage compartment package (flexible transport of items and comfort while traveling; consisting of: - storage net on the back of the front seat backrests - cup holder in the rear center armrest - storage compartment on the driver's side - lockable glove compartment in the luggage compartment - luggage compartment net - net in the left-hand recess - tensioning strap on the luggage compartment side (not for SQ5 Sportback))
- 70-liter fuel tank with additional 24-liter AdBlue tank (larger tank for AdBlue solution)
- Ambient Lighting Package Plus (in addition to the standard interior lighting (LED): - Courtesy lighting in the exterior door handles - Entry lights on the underside of the front and rear doors (white) - Footwell lighting at the front and rear (white) - Interior door handles at the front and rear (white) - Ambient lighting in the front and rear doors, multi-colored - Illuminated storage compartment below the instrument panel - Ambient lighting on the front center console, multi-colored - Illuminated decorative inserts in the instrument panel and doors, multi-colored)

- Trailer coupling (mechanically pivoting ball head with electric release - ball bar and ball head made of forged steel - operated via button in the luggage compartment - trailer stabilization via the Electronic Stability Control (ESC). The integrated pivoting system socket allows continuous operation of electrical devices in the trailer or caravan while driving and can be pivoted invisibly behind the bumper apron when not in use.)
- LED headlights: Matrix LED headlights with dynamic light staging and dynamic indicator lights (multifunction camera - headlight cleaning system - LED headlights front and rear with the following functions: - visually enhanced daytime running lights - low beam - high beam - position light - indicator light - cornering light - all-weather light - maneuvering light - motorway light - automatic dynamic headlight range control - static cornering light - dynamic coming-home/leaving-home light staging)
- Paint finish: metallic
- Parking Aid Plus (assists the driver with acoustic signals and a display when parking and maneuvering. The parking aid is activated by engaging reverse gear or via a button on the center console, or automatically when the distance to a detected object is less than 90 cm. Automatic activation can be switched on and off.)
- Seat covers in fabric Imprint (seat center panel in fabric Imprint black - seat side bolsters, headrest center panel, front center armrest in fabric plain black)
- Seats: Front sports seats
- Seats: Lumbar support for the front seats, electric (4-way) (horizontally and vertically adjustable)

Brief expert findings

Documents submitted	At the time of the inspection, the registration certificate Part 2 (letter) was available, but the registration certificate Part 1 (certificate) was not. (Copy)
VIN comparison	The vehicle identification number (VIN) was read and the undersigned verified that it matched the documents submitted during the inspection.
Inspection	The inspection conditions were sufficient for the assessment of the vehicle. Lifting equipment and a pit were available for examining the vehicle.
Test drive	No test drive/maneuvering was carried out during the inspection of the vehicle.
Engine function test	An engine test run was performed.

Value reducing factors

No.	Component group	Description

Order/Scope of order

The order was placed to prepare a sales report for the vehicle described. This includes the following:

- Description of core relevant information about the vehicle
- Documentation of equipment features
(*Delivery by third-party service providers*)
- Documentation of damage, defects, missing parts
- Documentation of previous damage, unrepaired previous damage, repainting
- a brief visual or functional inspection of the equipment details if possible.
(*Functional tests of driver assistance systems are not included in the scope of services!*)
- a photo documentation of the vehicle

Basis for the order

This product is based on the Alphabet Fuhrpark GmbH guidelines for vehicle returns and valuations. The expert makes the explicit findings in each individual case objectively within the framework of the specified standards based on his or her own expertise.

The vehicle inspection takes place in a disassembled state.

Damage or defects that can only be detected during disassembly/diagnosis work or through advanced knowledge remain within the scope of the prognosis risk. An extended risk exists for concealed defects caused by fraudulent deception and not identifiable by the expert.

Damage or defects resulting from normal use or wear and tear of the vehicle will be accepted according to the applicable standard.

There was no explicit identification or monetary consideration of the expected features within the product.

Features which in their nature and severity slightly exceed normal use but do not constitute unacceptable damage will be documented and identified under signs of use if necessary.

Damage or defects which, according to the underlying standard, can no longer be attributed to normal use or wear and tear are listed in the product under "Depreciating Factors".

Depending on the product specification, a monetary ID can be provided. If this takes place, the costs can be 100% d or pro rata depending on the vehicle's age and mileage.

Previous damages

According to available information previous damages were repaired at the vehicle. Traces of repairs, which allow conclusions about the area of repair, were not recognizable during the inspection.
